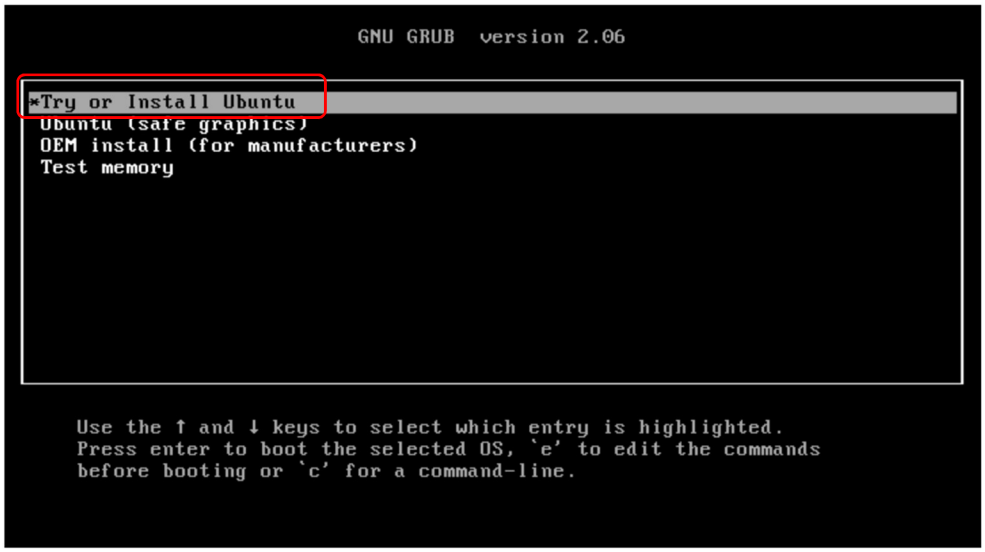
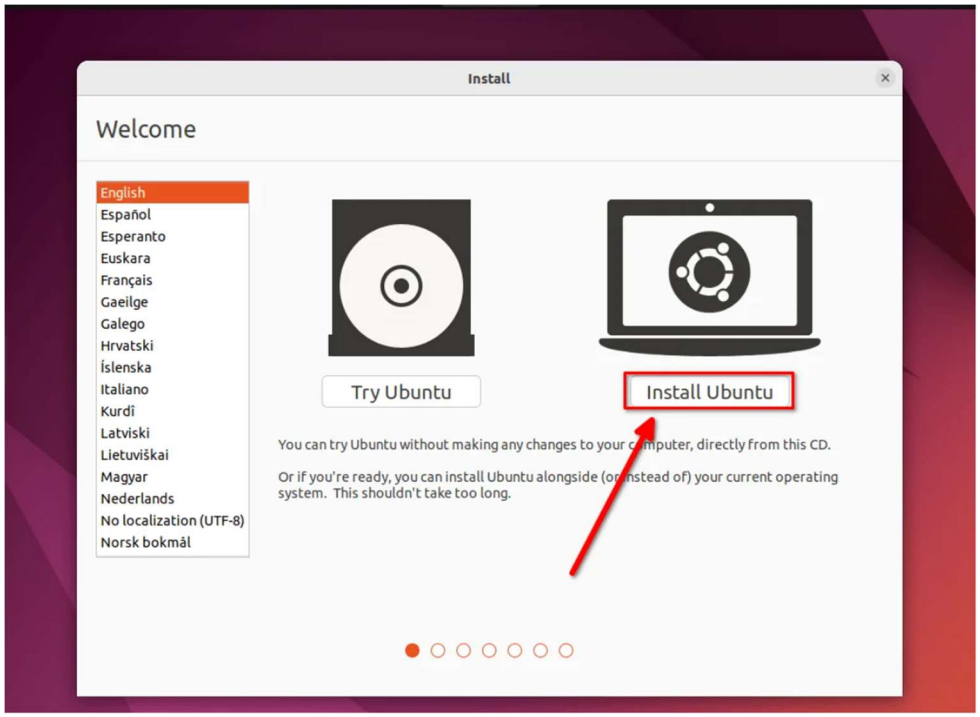
Follow the below Steps to Install Ubuntu 22.04.2 LTS

Step 1 - Boot Ubuntu ISO

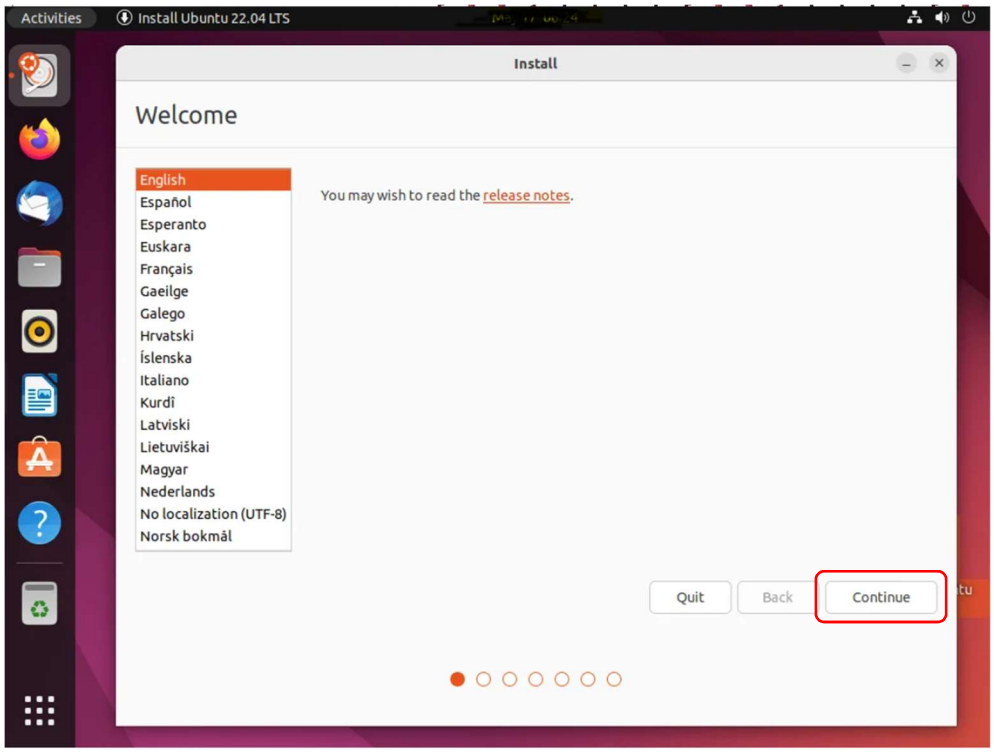
Boot your system with the newly created Ubuntu 22.04 bootable USB drive. You will see the following menu. By default, the first option is automatically selected to boot into the live system.



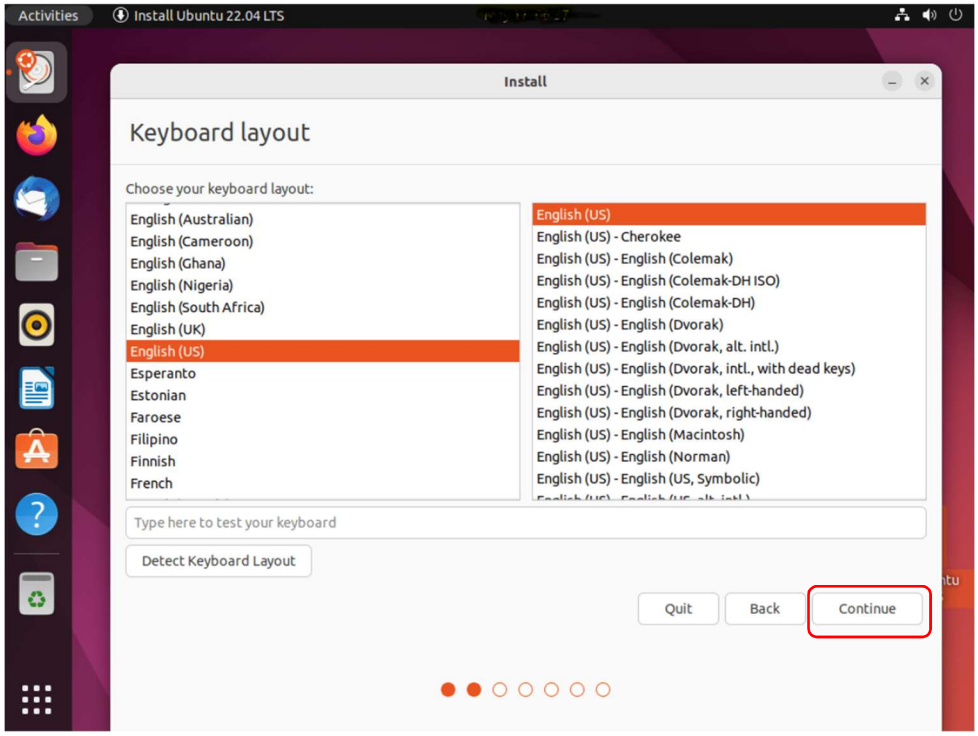
Step: 2 - Clicking on the "Install Ubuntu" button.



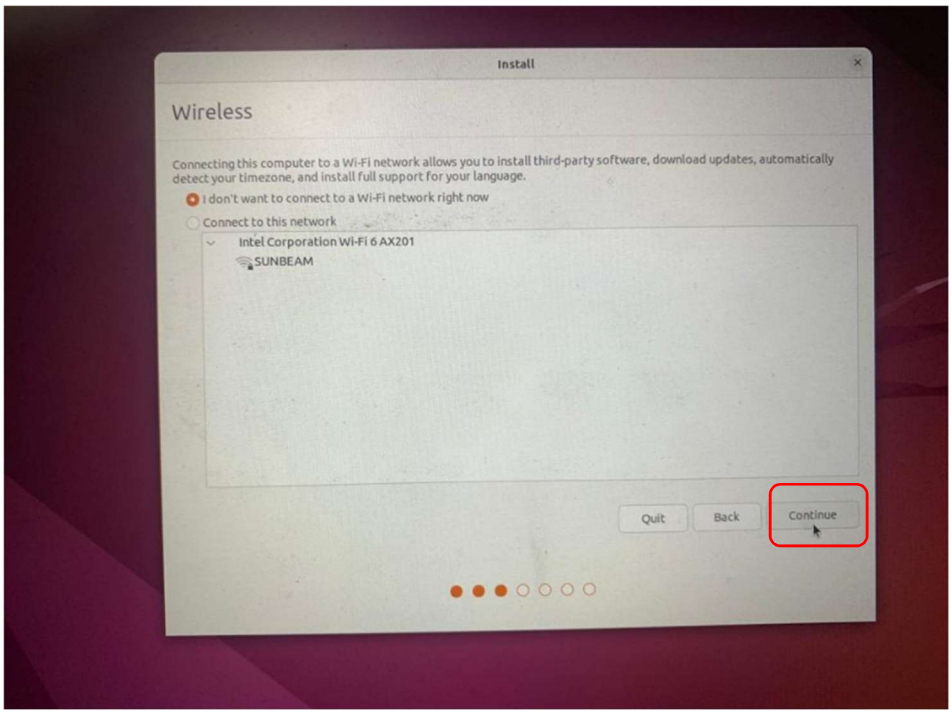
Step 3 - Choose Installation Language



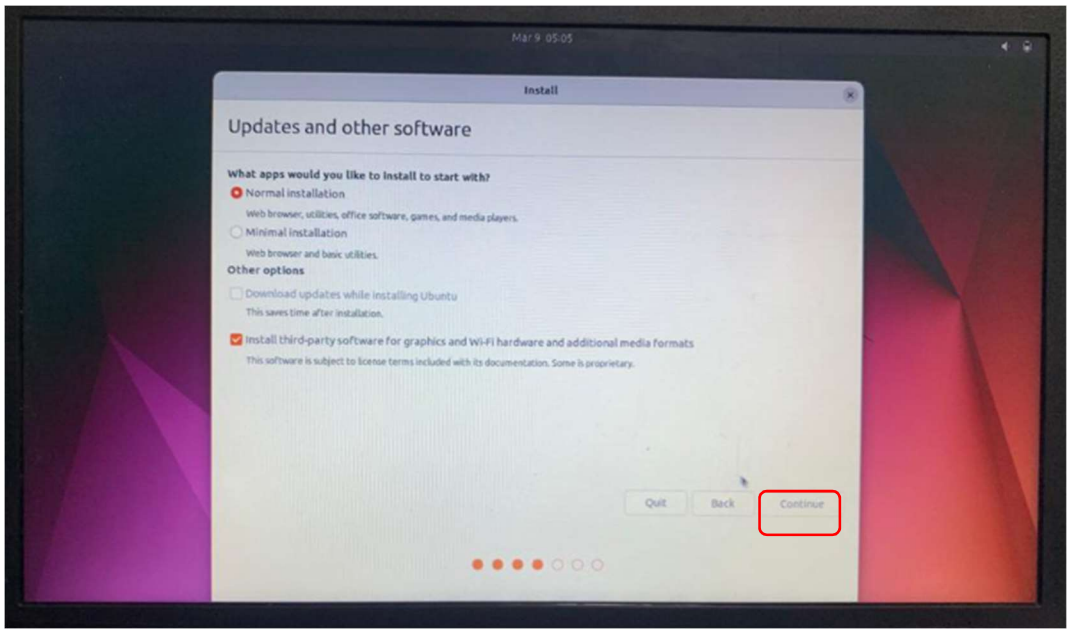
Step 4 - Choose Keyboard Layout.



Step 5 - Select <u>I don't want to connect to a Wi-Fi network right now</u>

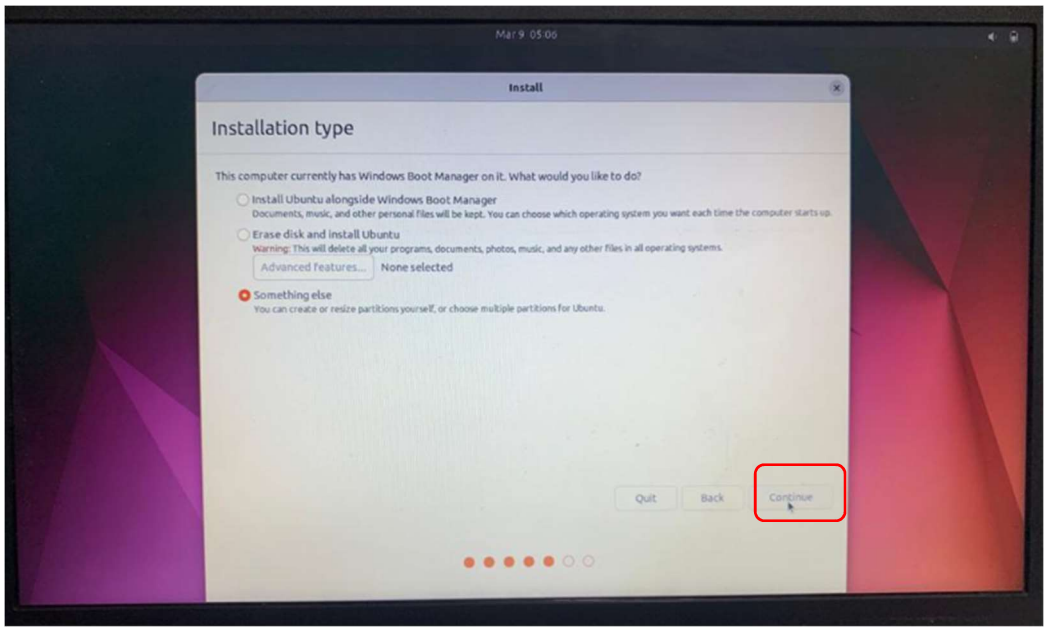


Step 6 - Choose Normal installation and install third-party software for graphics and Wi-Fi hardware and additional media formats.



Step 7 - Manual Partitioning Method

Choose Installation Type – something else.



Step 8 - Select the free space and click the + (plus) sign to create a new partition.

Create two partition here (E.g. swap), and Root (E.g. /ext4) and click OK.
